French Driver's Licence

Specialized in strategy consulting with a software engineering background and a passion for disruptive technologies, I look forward to working on international level business cases. I am currently looking for an internship or a full time job.

EDUCATION

Today	Advanced Master . Strategy & Management of International Business . Cergy, FR	ESSEC
September 2019	Through this degree, ESSEC gives its students the core knowledge required for high responsibility positions in a multinational business environment. Having taken the consulting track, I covered additional material with a strong focus on business case problem solving. Material covered included: leadership, finance, accounting, management, cost analysis, marketing and more.	
December 2017	Bachelor . Software Engineering . Montreal, CA	McGill
September 2013	This degree covered a broad range of technical material giving the ability to understand and develop complex software systems of any kind. Project management skills were also a key focus of the program.	

EXPERIENCE

April 2019	R&D Computer Vision Software Engineer . Paris Area, FR . (1yr)	SURYS
March 2018	Surys offers hologram based, anti-counterfeiting solutions worldwide. As part of the software R&D department, my main purpose was to research and design hologram authentication algorithms using computer vision and machine learning techniques. I also mentored a master's student through his final year internship at SURYS. Finally, I successfully tightened SURYS' relationship with Keesing, SURYS' Dutch subsidiary, and took part in defining their business strategy.	
August 2017	Database Developer . La Defense, FR . (1 month)	Deloitte
July 2017	I developed software routines to transfer data from one database to another.	
August 2016	Full stack web developer . London, UK . (9 months)	Givee
December 2015	Givee is an on-line gift platform start-up. As a team of five, we took Givee from an idea to a registered company with a functional website: https://www.givee.co.uk	
December 2015	Project manager & VBA expert . Marignane, FR . (8months)	Airbus Helicopters
May 2015	I managed the integration of a new database in a department. This included supervising the subcontracted development work, performing data migrations, and training future users. In addition I provided support for any heavy Excel workload requiring VBA expertise.	

SOFTWARE EXPERTISE

Languages	R, Python, SQL, C++, C#, Java, Javascript, VBA
Theoretical Knowledge	Machine Learning, Web-Development, Data Analysis & Modeling, Data Science, Big Data, AI

ACHIEVEMENTS & POSITIONS OF RESPONSIBILITY

2020	Data Science Specialisation Certificate delivered by John Hopkins University via Coursera
2018	GMAT : 630
